

Introduction to Deep Learning - Task 2

Accuracy with two features (Linear Kernel): 0.7222222222222222

Accuracy with two features (Polynomial Kernel): 0.7111111111111111

Accuracy with two features (RBF Kernel): 0.7333333333333333

Accuracy with all features: 0.6777777777777778

The model with the highest accuracy is: Two Features (RBF) (0.7333)
